

# Welcome to Our Community

Caring for a loved one requires more than just understanding the symptoms, it's understanding the person. It's more than just medicine, it's an embrace that is real. A touch that is loving. At Spring Ridge, long before we provide any services we ask ourselves, what is best for you and your loved one? For your family? Will it make life better for everyone? In your search for solutions and the ideal care setting, look beyond the walls. Look for that caring touch that's a complete experience and one that goes beyond just your medical concerns. This is who we are, and this is why we are here.

Let us show you the  
Spring Ridge caring touch!

## A Community of Care and Support

It's only natural to feel helpless over what to do about the medical and care challenges that have overtaken the life of your loved one. Fortunately, Spring Ridge can be part of the solution.

At Spring Ridge we provide Assisted Living and Memory Care. More importantly, we provide experience and understanding. Let us help you and your loved one obtain the care and services that you need.

### Tours Daily

*If the services included in the monthly base rent are not enough to keep you living independently, additional personal support and care services can be added. We can assist in designing a care program to fit individual needs for living as independently as possible. The personal support services fee is based on the actual services provided and is determined following a personal assessment conducted by our professional team.*

## Residential Care

Assisted living is the perfect choice for those who need care and support services for independent living. Our licensed apartments are available as studios and one-bedrooms, with a trained staff that provides personalized support services on a flexible schedule. This encourages our residents to do as much for themselves as possible.

*Services in the monthly base rent for Residential Care residents include:*

- 3 meals each day and snacks (includes some modified diets)
- Medication management
- Weekly housekeeping services
- Weekly linen services
- All utilities (except telephone and cable TV services)
- Planned activities, social opportunities and programs
- 24-hour staff for supervision and assistance
- Regular monitoring for general health and well-being
- Apartment maintenance
- RN support and oversight
- Scheduled transportation to medical appointments and activities
