

Did you Know:

Did you ever wonder how April Fool's Day started? It is speculated that the custom of April Fools began in France during the 16th century, after the New year calendar was moved from April 1st to January 1st. Those who continued to celebrate the April new year were considered fools, and often the victims of practical jokes. Today we just like to have a little fun with our friends!

April has two birth flowers. Both the daisy and the sweet pea are considered birth flowers for the month of April. The sweet pea signifies blissful pleasure, while daisies represent childhood innocence, loyalty, and purity.

On April 15, 1912 the Titanic, believed to be unsinkable, hit an iceberg and sank 2 hours and 40 minutes later. Unfortunately, there were too few lifeboats to save everyone and only about 700 of the 2,224 passengers were rescued.
